PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: S4 TRNG 155

SESSION NUMBER: 1

DATE OF SESSION: 881014

DATE OF REPORT: 881017

START: 1325

END: 1410

METHODOLOGY: CRV

VIEWER IDENTIFIER: 032

1. (S/NF/SK) MISSION: Access and describe in a stage one sense training target # 155, Oral Roberts University.

2. (S/NF/SK) VIEWER TASKING: Encrypted coordinates 3602377/955703.

3. (S/NF/SK) COMMENTS: 032 went into AOL drive (foreign R & D center) shortly after entering stage 4. The reason for the AOL drive was two-fold 1) 032 was not breaking after declaring AOLs and 2) the monitor caused 032 to put undue emphasis on a word. When 032 objectified the "I" of 'aerodynamic' the monitor asked him why he said that. (The motivation for the question was to have 032 determine that the word was either AOL or was a description of the architecture/ sculptures present). 032 was not able to identify why he said aerodynamic but the question caused him to dwell on the word which fed his AOL. Many lessons learned for both monitor and viewer. This is a good example of why stage five should not be attempted until after the viewer has truly mastered stage 4.

4. EVALUATION:

HANDLE VIA SKEET CHANNELS ONLY
SPECIAL ACCESS REQUIRED
